Approval and Promulgation of Implementation Plans; Reasonably Available Control Technology for Oxides of Nitrogen for Specific Sources in the State of New York

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve three (3) State Implementation Plan (SIP) revisions submitted by the State of New York related to development of reasonably available control technologies for oxides of nitrogen from various sources in the State. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP revisions, as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be

addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this rulemaking. Any parties interested in commenting on this **Federal Register** should do so at this time.

DATES: Comments must be received on or before October 23, 1997.
